

A Grand Opening It Was . . .

It's not often a company experiences a Grand Opening. Last Spring Sellers Tractor opened a new facility in Topeka and over 500 attended the celebration. It was indeed a "Grand" opening!

If you didn't make our extravaganza the pictures on this page will tell you part of the story. For the rest, you'll have to come in and see for yourself.

A fantastic facility and competent people - that's the real story behind our success in Topeka.

Come in and see us . . .

The manufacturers we represent helped with our Topeka Grand Opening. The owner of Champion Graders, Bruce Sully, furnished our party with a very large shipment of wine from his personal vinyard in Canada.

The next morning some of our people were thinking they could have done without Sully's help.
